Monforte Del Cid - Table Grapes

"The Unassuming Star of Spain's New Year: Monforte del Cid's Table Grapes"

Nestled within the sun-drenched province of Alicante lies Monforte del Cid, a quaint Spanish town renowned for its table grape cultivation. But these are not merely fruits; they encapsulate the region's dedication to quality, tradition, and innovation. In the heart of Spain's Costa Blanca, these grapes have crafted a unique identity for Monforte del Cid, contributing to a cultural tradition that extends far beyond the vineyards.

The artistry of cultivating table grapes in this region involves a harmonious blend of traditional techniques and modern innovation. Notably, local growers employ a distinctive practice of wrapping each grape bunch in white bags. This method, which serves to harden the skins and intensify the sweetness, reflects a meticulous attention to detail, helping create an exceptional fruit that is larger, seedless, or with smaller seeds for a more pleasant eating experience.

The region's principal table grape varieties, Muscat of Alexandria and Aledo, are celebrated for their sweet, aromatic profiles. The balance of sweet and floral notes from the Muscat of Alexandria, along with the delicate sweetness of the late-harvested Aledo, delight the palate. Harvested painstakingly by hand, these grapes speak to the unwavering commitment to quality, preserving the integrity of each bunch until it reaches the consumer.

However, the cultural significance of these grapes extends beyond their taste. They hold a central role in a century-old Spanish New Year tradition, known as "Las doce uvas de la suerte," or "The twelve grapes of luck." This ritual, born out of a grape surplus in 1909, has families across Spain consuming a grape with each stroke of midnight on New Year's Eve, each grape symbolising good fortune for a month of the coming year.

Interestingly, the very technique that ensures the high quality of Monforte del Cid's grapes also makes them ideal for this tradition. The unique bagging method extends the harvest into late December, ensuring the availability of fresh grapes for the New Year's celebrations. Packed into special tins, often marketed as "lucky grapes," each carefully cultivated grape from Monforte del Cid forms a part of the national countdown to the New Year.

In essence, the table grapes of Monforte del Cid are a manifestation of the region's agricultural prowess and cultural heritage. The journey from vine to New Year's Eve table is a testament to a community's dedication to preserving tradition while innovating for quality. In their cultivation and consumption, we find an inspiring tale of agriculture shaping cultural practices and a simple fruit uniting a nation in a beloved custom.

"La discreta estrella del Año Nuevo español: La uva de mesa de Monforte del Cid"

Enclavado en la soleada provincia de Alicante se encuentra Monforte del Cid, un pintoresco pueblo español famoso por su cultivo de uva de mesa. Pero no se trata sólo de frutas, sino de la dedicación de la región a la calidad, la tradición y la innovación. En el corazón de la Costa Blanca española, estas uvas han forjado una identidad única para Monforte del Cid, contribuyendo a una tradición cultural que se extiende mucho más allá de los viñedos.

El arte de cultivar uvas de mesa en esta región es una mezcla armoniosa de técnicas tradicionales e innovación moderna. En particular, los viticultores locales emplean una práctica distintiva que consiste en envolver cada racimo de uva en bolsas blancas. Este método, que sirve para endurecer los hollejos e intensificar el dulzor, refleja una meticulosa atención al detalle, ayudando a crear una fruta excepcional de mayor tamaño, sin pepitas o con pepitas más pequeñas para una experiencia de consumo más agradable.

Las principales variedades de uva de mesa de la región, Moscatel de Alejandría y Aledo, son célebres por sus perfiles dulces y aromáticos. El equilibrio de notas dulces y florales del Moscatel de Alejandría, junto con la delicada dulzura del Aledo, de vendimia tardía, deleitan el paladar. Cosechadas minuciosamente a mano, estas uvas hablan del compromiso inquebrantable con la calidad, preservando la integridad de cada racimo hasta que llega al consumidor.

Sin embargo, el significado cultural de estas uvas va más allá de su sabor. Ocupan un lugar central en una centenaria tradición española de Año Nuevo, conocida como "Las doce uvas de la suerte". Este ritual, nacido de un excedente de uva en 1909, hace que familias de toda España consuman una uva con cada campanada de medianoche en Nochevieja, simbolizando cada uva la buena suerte para un mes del año venidero.

Curiosamente, la misma técnica que garantiza la alta calidad de las uvas de Monforte del Cid también las hace ideales para esta tradición. El exclusivo método de embolsado prolonga la vendimia hasta finales de diciembre, garantizando la disponibilidad de uvas frescas para las celebraciones de Año Nuevo. Envasadas en latas especiales, a menudo comercializadas como "uvas de la suerte", cada uva cuidadosamente cultivada de Monforte del Cid forma parte de la cuenta atrás nacional para el Año Nuevo.

The Osborne Bulls

CREADO EN 1956

Hace más de 60 años, Osborne encargó a la agencia de publicidad Azor la promoción del brandy Veterano.

El diseñador Manolo Prieto creó en 1956 el icónico toro de Osborne, hoy parte reconocida del paisaje español.

José Antonio Osborne y José Luis Gómez Bermúdez recorrieron España colocando más de 200 toros.

El primer cartel de madera de 4 metros se erigió en Cabanillas de la Sierra en 1957. En 1961, un toro de metal de 7 metros lo sustituyó, convirtiéndose en la estructura icónica que conocemos hoy. Las leyes de 1962 y 1974 obligaron a alejar los toros de las carreteras. En 1988, una ley prohibió la publicidad visible en las autopistas, pero en 1997 se concedió una exención al toro de Osborne. Ahora hay 92 toros en toda España.

La imagen es reconocida internacionalmente, con toros en Japón, Dinamarca y México. Existen concentraciones en torno a Jerez de la Frontera, Cádiz y Sevilla, mientras que algunas regiones no tienen ningún toro o sólo uno.

CREATED IN 1956

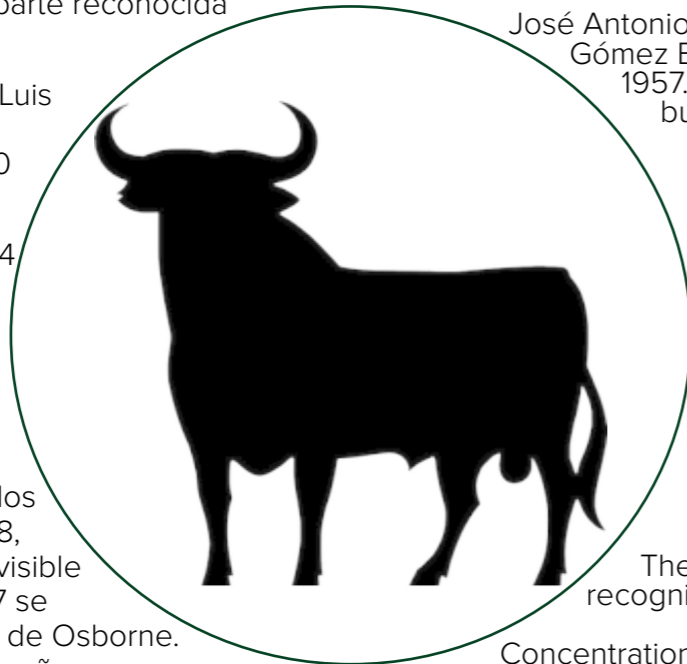

Over 60 years ago, Osborne commissioned Azor advertising agency to promote Veterano brandy.

Designer Manolo Prieto created the iconic Osborne bull in 1956, now a recognized part of Spain's landscape.

José Antonio Osborne and José Luis Gómez Bermúdez de la Sierra in 1957. In 1961, a 7-meter metal bull replaced it, becoming the iconic structure we know today.

Laws in 1962 and 1974 required the bulls to be moved further from roads. In 1988, a law prohibited visible motorway advertising, but an exemption for the Osborne bull was granted in 1997. There are now 92 bulls across Spain.

The image is internationally recognized, with bulls in Japan, Denmark, and Mexico. Concentrations exist around Jerez de la Frontera, Cádiz, and Sevilla, while some regions have none or only one bull.

En pilates Alenda, disponemos de 8 camas Reformer con todo tipo de accesorios, destinadas para un máximo de 8 personas por clase.

Hacemos estos grupos reducidos, para poder estar pendiente de cada alumno e incluso de personalizar algún ejercicio, acorde a sus limitaciones.

La duración de cada clase es de 1 hora.

Lo idóneo, sería la asistencia a la semana de dos clases, ya que en una trabajamos más el tren superior y en la otra el tren inferior, siempre desde el enfoque en el núcleo (core) y con un preciso control de movimientos.

Para cualquier consulta, no duden en contactar con nuestro monitor Hugo Pastor Balart, Licenciado en Ciencias de la Actividad Física y del Deporte y con una gran formación en Pilates Reformer.

WOMEN, CHILDREN... AND DATA FIRST!

Almost all of us think it's good to store our photos or files on local devices, independent of any cloud, in our homes; it gives us confidence, security and peace of mind.

But we must bear in mind that media fails: DVDs we burn fail, Pendrives fail, hard drives fail, memory chips fail, for example, in mobile phones. For no reason. Without having made any mistake on our part.

One day you are so calmly using some memory, and suddenly it stops working, and the content is lost, sometimes unrecoverable or sometimes paying a laboratory up to 700 € so they can recover it.

Avoid the risk, just with a second memory unit, to which you only make copies from time to time, as often as the data is important.

We have free software that calculates new data and copies only what has not been copied before, and the cost of storage media is getting cheaper every day, it's just a matter of getting organised.

Nowadays we have storage adapters to make copies in almost any way and from any device.

Take care of your data, back it up.

¡MUJERES, NIÑOS... Y DATOS PRIMERO!

Casi todos pensamos que es bueno guardar nuestras fotos o archivos en dispositivos locales, independientes de cualquier nube, en nuestras casas; nos da confianza, seguridad y tranquilidad.

Pero hay que tener en cuenta que los soportes fallan: fallan los DVD que grabamos, fallan los Pendrives, fallan los discos duros, fallan los chips de memoria, como por ejemplo, de los teléfonos móviles. Sin motivo. Sin haber cometido ningún error por nuestra parte.

Un día estás tan tranquilo usando alguna memoria, y de repente deja de ir, y el contenido se pierde, a veces irrecoverable o a veces pagando a un laboratorio hasta 700€ te lo recuperan.

Evita el riesgo, tan solo con una segunda unidad de memoria, a la cual solo le haces copias de vez en cuando, con tanta frecuencia como importantes sean los datos.

Respetar nuestro entorno ... Respect Our Environment ...

Queridos residentes y visitantes de Alenda Golf,

Como orgulloso residente de esta hermosa comunidad del campo de golf, es crucial que nos unamos para preservar y respetar nuestro entorno local. Al concienciar sobre ciertos problemas locales, podemos tener un impacto positivo en nuestro entorno.

En primer lugar, abordemos los niveles de ruido: la serenidad de nuestros alrededores puede verse fácilmente perturbada por el ruido excesivo, así que seamos conscientes de nuestro volumen, especialmente durante las mañanas tempranas y las noches tardías.

En segundo lugar, como dueños de mascotas, debemos asumir la responsabilidad de nuestros amigos peludos y asegurarnos de recoger después de ellos, manteniendo nuestros caminos limpios de sus desechos.

En tercer lugar, seamos conscientes de la contaminación del aire, minimizando el tiempo de ralentí innecesario de los vehículos y utilizando opciones de transporte ecológicas siempre que sea posible.

Por último, conducir a exceso de velocidad dentro de la comunidad representa un riesgo significativo para todos, así que por favor conduzcan con cuidado y respeten los límites de velocidad y los reductores de velocidad.

Dear Alenda Golf Residents, and Visitors

As a proud resident of this beautiful golf course community, it is crucial that we come together to preserve and respect our local environment. By raising awareness about certain local issues, we can make a positive impact on our surroundings.

Firstly, let's address the noise levels – the serene ambiance of our surroundings can be easily disturbed by excessive noise, so let's be mindful of our volume, especially during early mornings and late balmy evenings.

Secondly, as pet owners, we must take responsibility for our furry friends and ensure we clean up after them, keeping our pathways free from dog and cat mess.

Thirdly, let's be conscious of air pollution by minimizing unnecessary vehicle idling and using eco-friendly transportation options when possible.

Lastly, speeding within the community poses a significant safety risk to everybody, so please drive carefully and adhere to the speed limits and speed bumps.

Together, we can create a harmonious and respectful environment that we can all be proud of. Let's make a positive change and protect the beauty that surrounds us.

Mandatory Dog Insurance ...

Seguro obligatorio para perros ...

Mandatory Dog Insurance in Spain to Take Effect from 29th September 2023

In March of this year, after months of negotiations, the pioneering Animal Welfare Act, known as Law 7/2023, was successfully passed. Among its groundbreaking measures, a significant provision has been introduced, which mandates all dog owners to have public liability insurance for their pets. This requirement will come into force on 29th September 2023, marking a considerable advancement in pet protection.

Article 30 of this revolutionary legislation clearly requires individuals who have dogs to obtain and maintain liability insurance covering potential third-party damages for the duration of the animal's life. This comprehensive cover not only includes possible harm caused by the dog but also those responsible for the dog's actions. The objective is to ensure that adequate financial protections are in place to cover any ensuing costs.

El seguro obligatorio para perros en España entrará en vigor a partir del 29 de septiembre de 2023

En marzo de este año, tras meses de negociaciones, se aprobó con éxito la Ley de Bienestar del Animal, conocida como Ley 7/2023. Entre sus medidas pioneras, se ha introducido una importante disposición que obliga a todos los dueños de perros a tener un seguro de responsabilidad civil para sus mascotas. Este requisito entrará en vigor el 29 de septiembre de 2023, lo que supone un avance considerable en la protección de los animales de compañía.

El artículo 30 de esta revolucionaria legislación obliga claramente a los particulares que tengan perros a obtener y mantener un seguro de responsabilidad civil que cubra los posibles daños a terceros durante toda la vida del animal. Esta amplia cobertura no sólo incluye los posibles daños causados por el perro, sino también a los responsables de las acciones del perro. El objetivo es garantizar una protección financiera adecuada que cubra los costes derivados.

Bees & Wasps ...

Top Tips to Peacefully Coexist with Bees and Wasps This Summer

Although bees and wasps might seem pesky, remember they play an essential role in our environment. So, rather than fearing them, let's look at friendly ways to keep these buzzing friends at a distance.

During the sun-soaked months bees and wasps become particularly active due to the warmth aiding their reproduction. And with us humans also being out and about, there's bound to be an intersection of paths.

It's worth noting the difference between these insects. While wasps possess a smooth stinger and can also bite, bees have a barbed stinger and will die after stinging. Bees generally sting only when they feel endangered, so it's best to stay calm around them.

Suggestions for Keeping Bees and Wasps at Bay

- Crushed Garlic: Let it ripen for several days before scattering it around your outdoor spaces.
- Coffee or Vinegar: These strong smells deter our winged friends.
- Citrus Peels: Scatter lemon or orange peels around your outdoor areas.
- Smoke: If there's a hive nearby, gentle smoke can encourage them to find a new spot.
- Aromatic Plants: Adorn your patio or window ledges with fragrant plants like basil, citronella, eucalyptus, laurel, lavender, or mint.
- Candles: There are always Citronella candles in shops and supermarkets, buy some they work well.

Additional Friendly Advice:

- Always cover food during outdoor gatherings.
- Reaching out to a local beekeeper might be a good shout. Here is one we know, call Jose 607 35 85 94 Jose@ecomercat.es he will collect and remove any hives that you may find.

Please Remember About Our Buzzing Buddies:

It's vital to remember that bees and wasps are pivotal for biodiversity. Should they pay you a visit, remain serene and avoid jerky movements. And if you do get stung, it's wise to place some ice on the area and consider seeking medical advice, particularly if there's a concern about allergies.

Torrija ...

According to the Royal Academy of the Spanish Language's dictionary, a torrija is a slice of bread soaked in milk or wine, dipped in egg, fried and sweetened. Under similar definition we find other dishes from other countries, as the French toast in United States, pain perdu in France, or Fetzelschnitten in Germany. All similar, but all different. In all cases, they try to make a tasty sweet dessert from basic and humble ingredients such as bread and milk.
